CAMERONE STONEY

As a Full-Stack Engineer, I bring the ability to think creatively and critically to technologies such as Angular, React, CSS3, GraphQL, NodeJs and Type-script, while using my ability to communicate, in an effort to work with and lead others toward finding a solution or reaching a common goal.

EXPERIENCE

Full-Stack Software Engineer

Lucid Creative LLC • Portland, OR • January 2020–November 2020

• Worked full-stack on products to implement new features and re-factor existing features
• Learned Angular, and GraphQL during employment
• Optimized code performance and logical clarity
• Undertook and completed a re-factor of the GraphQL schema
• Implemented unit and end-to-end testing

Development Environment:
Angular7 | SCSS | GraphQL | MongoDB | Typescript | Jest | Agile

Independent Contractor

Self-employed • Portland, OR • January 2019–January 2020

• Assisted clients with various woodworking tasks through consultation with the customer about the feasibility of each woodworking project
• Suggested amendments to customer design
• Created custom wood projects based on client-approved designs

Production Lead

Sturdi-Built Greenhouse Manufacturing • Portland, OR • Sep. 2015–Jan 2019

• Created high quality doors, bar-caps, and crates in a timely manner
• Trained new employees while maintaining quality and timely completion of parts
• Created and implemented new ways to crate products increasing production without increased labor
• Stepped in as 'Acting Shop Foreman' when needed
